NO ONE Expects the same satisfac-

tion, the correct fit, the distinctive "tone" in a suit or dress where the measurements are taken here and sent to some distant city to have the garments made, as

is expected where a competent garment maker takes the measere, observes every line of the customer's figure, notes the different postures, the characteristic walk, etc., then with all these in mind DESIGNS AND MAKES the garment

Neither must you be exacting from the man who, after testing your eyes, sends a description of your lenses to some distant city. It is hardly fair to him, because he knows the house to which he sends his order picks out the nearest thing to his description it has in stock -just as the garment house does-sometimes making a little alteration, more often not. This, of course, explains why glasses thus ordered are so often unsatisfactory, causing the disappointed wearers to come to me for prescription lenses-LENSES GROUND UNDER MY PERSONAL SUPERVISION.

HERE you have a right to EXPECT AND DEMAND that absolutely exact correctness unattainable in mail order methods, because here you are privileged to follow your prescription through all its details of grinding UNDER THE EYES AND INSTRUCTIONS OF THE EXAMINER. Sometime

You expect to QUIT YOUR FOOLISHNESS in buying the over capitalized Director "plundered" HURRAH splash and splurge "come on" stocks-and buy something real, substan tial, "and attractive" -as measured by facts, actual conditions and common sense.

Somehow

You ought to be able to use a little practical common sense in your investment-when you use good fair common sense in other business matters.

There are stocks in propositions that actually tell you the truth, and in which the plain cold truth is good enough, that do not need to mystify, "color" or exagerate the proposition at all, and we would like to show you that we have THIS KIND of a proposition.

Better Be Safe

Than sorry, but it is strange how little precaution people will take to be "SAFE" in investments, and we can SHOW you that we can give you from two to five times as big value and bigger bargain than you can get elsewhere. Are you interested in helping build our mill on our big patented mineral estate, which is owned free and clear, with the stock at a price at but a fraction of its value? A card will do.
